* Non-GAAP Financial Measures

In addition to disclosing financial results that are determined in accordance with GAAP, we also disclose certain non-GAAP financial information, including:

- Non-GAAP operating income, which is operating income, adjusted to exclude acquisition-related and integration expenses, including related restructuring costs, spin-off related expenses, amortization of
 intangible assets and share-based compensation.
- Non-GAAP operating margin, which is non-GAAP operating income, as defined above, divided by revenue.
- Adjusted earnings before interest, taxes, depreciation, and amortization, or adjusted EBITDA, which is non-GAAP operating income, as defined above, plus depreciation.
- Adjusted EBITDA margin, which is adjusted EBITDA, as defined above, divided by revenue.
- Non-GAAP net income, which is net income excluding the tax effected impact of acquisition-related and integration expenses, including related restructuring costs, spin-off related expenses, amortization of
 intangible assets, share-based compensation and the income tax effect of assets held for sale.
- Free cash flow, which is cash flows from operating activities less capital expenditures. We believe that free cash flow is a meaningful measure of cash flows since capital expenditures are a necessary component of ongoing operations. However, free cash flow has limitations because it does not represent the residual cash flow available for discretionary expenditures. For example, free cash flow does not incorporate payments for business acquisitions.
- Non-GAAP diluted earnings per common share ("EPS"), which is diluted EPS excluding the per share, tax effected impact of acquisition-related and integration expenses, including related restructuring costs, spin-off related expenses, amortization of intangible assets, share-based compensation and the income tax effect of assets held for sale.

We believe that providing this additional information is useful to the reader to better assess and understand our base operating performance, especially when comparing results with previous periods and for planning and forecasting in future periods, primarily because management typically monitors the business adjusted for these items in addition to GAAP results. Management also uses these non-GAAP measures to establish operational goals and, in some cases, for measuring performance for compensation purposes. These non-GAAP financial measures exclude amortization of intangible assets. Although intangible assets does not directly relate to the services performed for our clients. Additionally, intangible asset amortization expense typically fluctuates based on the size and timing of our acquisition activity. Accordingly, we believe excluding the amortization of intangible assets, along with the other non-GAAP adjustments which neither relate to the ordinary course of our business nor reflect our underlying business performance, enhances our and our investors' ability to compare our past financial performance with its current performance and to analyze underlying business performance and trends. These non-GAAP financial measures also exclude share-based compensation expense. Given the subjective assumptions and the variety of award types that compares can use when calculating share-based compensation expense, management believes this additional information allows investors to make additional comparisons between our operating results and those of our periods. These non-GAAP financial measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies. These non-GAAP financial measures should not be considered in isolation or as a substitute for the comparable GAAP measures and should be used as a complement to, and in conjunction with, data presented in accordance with GAAP.

** The tax effect of taxable and deductible non-GAAP adjustments was calculated using the tax deductible portion of the expenses and applying the entity-specific, statutory tax rates applicable to each item during the respective fiscal years.
