FORM 10-Q

(Mark One)

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the quarterly period ended February 28, 2022
OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission File Number: 001-39494

CONCENTRIX CORPORATION

(Exact name of Registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

27-1605762

(I.R.S. Employer Identification No.)

39899 Balentine Drive, Newark, California

(Address of Principal Executive Offices)

94560

(Zip Code)

(800) 747-0583

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	CNXC	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date.

Class	Outstanding as of March 31, 2022
Common Stock, \$0.0001 par value	52,469,126

CONCENTRIX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (currency and share amounts in thousands, except per share amounts)

NOTE 1—BACKGROUND AND BASIS OF PRESENTATION:

Background

Concentrix Corporation (“Concentrix,” the “CX business” or the “Company”) is a leading global provider of Customer Experience (“CX”) solutions and technology that help iconic and disruptive brands drive deep understanding, full lifecycle engagement, and differentiated experiences for their end-customers around the world. The Company provides end-to-end capabilities, including CX process optimization, technology innovation and design engineering, front- and back-office automation, analytics and business transformation services to clients in five primary industry verticals. The Company’s primary verticals are technology and consumer electronics, communications and media, retail, travel and e-commerce, banking, financial services and insurance, and healthcare.

On December 1, 2020, the separation of the CX business (the “separation”) from SYNnex Corporation, now known as TD SYNnex Corporation (“TD SYNnex” or the “former parent”) was completed through a tax-free distribution of all of the issued and outstanding shares of the Company’s common stock to TD SYNnex stockholders (the “distribution” and, together with the separation, the “spin-off”). TD SYNnex stockholders received one share of the Company’s common stock for each share of TD SYNnex common stock held as of the close of business on November 17, 2020. As a result of the spin-off, the Company became an independent public company and the Company’s common stock commenced trading on the Nasdaq Stock Market (“Nasdaq”) under the symbol “CNXC” on December 1, 2020.

Basis of presentation

The accompanying interim unaudited consolidated financial statements have been prepared by the Company in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). The amounts as of November 30, 2021 have been derived from the Company’s annual audited financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended November 30, 2021. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles (“GAAP”) in the United States have been condensed or omitted in accordance with such rules and regulations. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to state fairly the financial position of the Company and its results of operations and cash flows as of and for the periods presented. These interim consolidated financial statements should be read in conjunction with the annual audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended November 30, 2021. All intercompany balances and transactions have been eliminated in consolidation.

Risks and uncertainties related to the COVID-19 pandemic

In December 2019, there was an outbreak of a new strain of coronavirus (“COVID-19”), which was declared a pandemic by the World Health Organization in March 2020. The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and labor force participation, and created significant volatility and disruption of financial markets. The Company successfully transitioned a significant portion of its workforce to a remote working environment throughout the second quarter of 2020 and implemented a number of safety and social distancing measures in the Company’s sites to protect the health and safety of the team. During the three months ended February 28, 2022, almost all of the Company’s workforce was productive, but the Company experienced the continued effects of the COVID-19 pandemic, as variants caused new waves of COVID-19 cases around the globe.

The extent of the continued impact of the COVID-19 pandemic on the Company’s operational and financial performance, including its ability to execute business strategies and initiatives in the expected time frame, will

depend on future developments, including the duration, spread and severity of the pandemic, the evolution of the virus and the effects of mutations in its genetic code, country and state restrictions regarding virus containment, the availability and effectiveness of vaccines and treatment options, accessibility to the Company's delivery and operations locations, its continued utilization of remote work environments in response to future health and safety restrictions, and the effect on the Company's clients' businesses and the demand for their products and services, all of which are uncertain and cannot be predicted. The Company is unable to predict how long the pandemic conditions will persist in regions in which the Company operates, if or when countries or localities may experience an increase in COVID-19 cases, what additional measures may be introduced by governments or the Company's clients in response to the pandemic generally or to an increase in COVID-19 cases in a particular country or locality, and the effect of any such additional measures on the Company's business. As a result, many of the estimates and assumptions used in preparation of these consolidated financial statements required increased judgment and carry a higher degree of variability and volatility. As events continue to evolve with respect to the pandemic and the global recovery from the pandemic, the Company's estimates may materially change in future periods.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

For a discussion of the Company's significant accounting policies, refer to the Company's Annual Report on Form 10-K for the fiscal year ended November 30, 2021. Accounting pronouncements adopted during the three months ended February 28, 2022 are discussed below.

Concentration of credit risk

For the three months ended February 28, 2022 and February 28, 2021, one client accounted for 10.3% and 11.9%, respectively, of the Company's consolidated revenue.

As of February 28, 2022 and November 30, 2021, one client comprised 12.3% and 15.3%, respectively, of the Company's total accounts receivable balance.

Recently adopted accounting pronouncements

In December 2019, the Financial Accounting Standards Board (the "FASB") issued new guidance that simplifies the accounting for income taxes. The guidance is effective for annual reporting periods beginning after December 15, 2020, and interim periods within those reporting periods. This standard became effective for fiscal year 2022 and did not have a material impact on the consolidated financial statements.

In August 2018, the FASB issued new guidance to add, remove, and clarify disclosure requirements related to defined benefit pension and other postretirement plans. The guidance requires the Company to disclose the weighted-average interest crediting rates used in cash balance pension plans. It also requires the Company to disclose the reasons for significant changes in the benefit obligation or plan assets, including significant gains and losses affecting the benefit obligation for the period. This standard became effective for fiscal year 2021 and did not have a material impact on the consolidated financial statements.

In June 2016, the FASB issued a new credit loss standard that replaced the prior incurred loss impairment model with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates. This standard became effective for fiscal year 2021 and did not have a material impact on the consolidated financial statements.

Recently issued accounting pronouncements

In March 2020, the FASB issued optional guidance to ease the potential burden for a limited time in accounting for or recognizing the effects of reference rate reform, particularly, the risk of cessation of the London Interbank Offered Rate ("LIBOR") on financial reporting. The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if

certain criteria are met. The amendments are elective and are effective upon issuance for all entities through December 31, 2022. The Company is currently evaluating the impact of this guidance.

NOTE 3—ACQUISITION:

PK Acquisition

Background

On December 27, 2021, the Company completed its acquisition of PK, a leading CX design engineering company with more than 5,000 staff in four countries. PK creates pioneering experiences that accelerate digital outcomes for their clients’ customers, partners and staff. The acquisition of PK expands the Company’s scale in the digital IT services market and supports the Company’s growth strategy of investing in digital transformation to deliver exceptional customer experiences. The addition of the PK staff and technology to the Company’s team further strengthens its capabilities in CX design and development, artificial intelligence (“AI”), intelligent automation, and customer loyalty.

Purchase price consideration

The total purchase price, net of cash acquired, was \$1,581.2 million, which was funded by proceeds from the Company’s new term loan (the “Term Loan”) under its amended senior secured credit facility (the “Credit Facility”) and additional borrowings under its accounts receivable securitization facility (the “Securitization Facility”). See Note 8—Borrowings for a further discussion of the Term Loan, the Credit Facility and the Securitization Facility.

The preliminary purchase price consideration to acquire PK consisted of the following:

Cash consideration for PK stock ⁽¹⁾	\$	1,177,568
Cash consideration for PK vested equity awards ⁽²⁾		246,229
Cash consideration for repayment of PK debt, including accrued interest ⁽³⁾		148,492
Cash consideration for transaction expenses of PK ⁽⁴⁾		22,842
Total cash consideration		1,595,131
Non-cash equity consideration for conversion of PK equity awards ⁽⁵⁾		15,725
Total consideration transferred		1,610,856
Less: Cash acquired ⁽⁶⁾		29,653
Total purchase price consideration	\$	1,581,203

⁽¹⁾ Represents the cash consideration paid for the outstanding shares of PK’s common stock, which includes a preliminary estimate of the merger consideration adjustment to be paid pursuant to the merger agreement.

⁽²⁾ Represents the cash consideration paid for vested PK stock option awards and restricted stock awards.

⁽³⁾ Represents the cash consideration paid to retire PK’s outstanding third-party debt, including accrued interest.

⁽⁴⁾ Represents the cash consideration paid for expenses incurred by PK in connection with the merger and paid by Concentrix pursuant to the merger agreement. These expenses primarily related to third-party consulting services.

⁽⁵⁾ Represents the issuance of vested Concentrix stock options that were issued in conversion of certain vested PK stock options that were assumed by Concentrix pursuant to the merger agreement.

⁽⁶⁾ Represents the PK cash balance acquired at acquisition.

Preliminary purchase price allocation

The acquisition was accounted for as a business combination in accordance with Accounting Standards Codification Topic 805, *Business Combinations*. The purchase price was allocated to the assets acquired, liabilities assumed and non-controlling interest based on management’s estimate of the respective fair values at the date of

acquisition. Goodwill was calculated as the excess of the consideration transferred over the net assets recognized and represents the estimated future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The factors contributing to the recognition of goodwill were the assembled workforce, comprehensive service portfolio delivery capabilities and strategic benefits that are expected to be realized from the acquisition. None of the goodwill is expected to be deductible for income tax purposes.

The following table summarizes the preliminary estimates of fair values of the assets acquired, liabilities assumed and non-controlling interest as of the acquisition date:

	<u>As of</u>
	<u>December 27, 2021</u>
Assets acquired:	
Cash and cash equivalents	\$ 29,653
Accounts receivable	86,955
Property and equipment	11,335
Operating lease right-of-use assets	12,288
Identifiable intangible assets	469,300
Goodwill	1,132,017
Other assets	11,954
Total assets acquired	\$ 1,753,502
Liabilities assumed and non-controlling interest:	
Accounts payable and accrued liabilities	70,269
Operating lease liabilities	12,288
Deferred tax liabilities	58,089
Non-controlling interest	2,000
Total liabilities assumed and non-controlling interest	\$ 142,646
Total consideration transferred	\$ 1,610,856

As of February 28, 2022, the purchase price allocation is preliminary. The preliminary purchase price allocation was based upon a preliminary valuation, and the Company's estimates and assumptions are subject to change within the measurement period (defined as the twelve months following the acquisition date). The primary areas of the preliminary purchase price allocation that are not yet finalized relate to the valuation of identifiable intangible assets acquired, the fair value of certain tangible assets acquired and liabilities assumed, and deferred income taxes. The Company expects to continue to obtain information for the purpose of determining the fair value of the assets acquired and liabilities assumed on the acquisition date throughout the remainder of the measurement period.

The preliminary purchase price allocation includes \$469.3 million of acquired identifiable intangible assets, all of which have finite lives. The preliminary fair value of the identifiable intangible assets has been estimated using the income approach through a discounted cash flow analysis of certain cash flow projections. The cash flow projections are based on forecasts used by the Company to price the PK acquisition, and the discount rates applied were benchmarked by referencing the implied rate of return of the Company's pricing model and the weighted average cost of capital. The intangible assets are being amortized over their estimated useful lives on either a straight-line basis or an accelerated method that reflects the economic benefit of the asset. The determination of the useful lives is based upon various industry studies, historical acquisition experience, economic factors, and future forecasted cash flows of the Company following the acquisition of PK.

Impact on results of operations

The results of the PK operations have been included in the consolidated financial statements since December 27, 2021. The following table provides the results of operations for PK included in the consolidated statement of operations from the acquisition date through February 28, 2022:

Revenue	\$	83,196
Income before income taxes		207

In connection with the acquisition of PK, the Company incurred a total of \$0.9 million of acquisition-related and integration expenses for the three months ended February 28, 2022. These expenses primarily include legal and professional services, and severance and retention payments to integrate the business. These acquisition-related and integration expenses were recorded within selling, general and administrative expenses.

Supplemental Pro Forma Information

The supplemental pro forma financial information presented below is for illustrative purposes only, does not include the pro forma adjustments that would be required under Regulation S-X for pro forma financial information, is not necessarily indicative of the financial position or results of operations that would have been realized if the PK acquisition had been completed on the date indicated, does not reflect synergies that might have been achieved, nor is it indicative of future operating results or financial position. The pro forma adjustments are based upon currently available information and certain assumptions that we believe are reasonable under the circumstances.

The supplemental pro forma financial information reflects pro forma adjustments to present the combined pro forma results of operations as if the PK acquisition had occurred on December 1, 2020 to give effect to certain events that the Company believes to be directly attributable to the PK acquisition. These pro forma adjustments primarily include:

- An increase in amortization expense that would have been recognized due to acquired identifiable intangible assets.
- An adjustment to interest expense to reflect the additional borrowings of Concentrix on the amended credit facility and the repayment of PK's historical debt in conjunction with the acquisition.
- The related income tax effects of the adjustments noted above.

The supplemental pro forma financial information for the periods presented is as follows:

	Three Months Ended	
	February 28,	
	2022	2021
Revenue	\$ 1,569,013	\$ 1,448,752
Net income	106,351	84,235

NOTE 4—SHARE-BASED COMPENSATION:

In November 2020, in connection with the spin-off, TD SYNEX, as sole stockholder of Concentrix, approved the Concentrix Corporation 2020 Stock Incentive Plan (the "Concentrix Stock Incentive Plan") and the Concentrix Corporation 2020 Employee Stock Purchase Plan (the "Concentrix ESPP"), each to be effective upon completion of the spin-off. 4,000 shares of Concentrix common stock were reserved for issuance under the Concentrix Stock Incentive Plan, and 1,000 shares of Concentrix common stock were authorized for issuance under the Concentrix ESPP. In December 2021, 523 additional shares of Concentrix common stock were reserved for issuance under the Concentrix Stock Incentive Plan resulting from an automatic annual increase pursuant to the terms of the plan.

In January 2022, the Company granted 137 restricted stock awards and restricted stock units and 129 performance-based restricted stock units under the Concentrix Stock Incentive Plan, which included annual awards to the Company's senior executive team and retention and new hire awards to staff who joined the Company from PK. The restricted stock awards and restricted stock units awards had a weighted average grant date fair value of \$181.09 per share and vest over a service period of four years. The performance-based restricted stock units will vest, if at all, upon the achievement of certain annual financial targets during the three-year period ending November 30, 2024. The performance-based restricted stock units had a grant date weighted average fair value of \$178.58 per share.

The Company recorded share-based compensation expense in the consolidated statements of operations for the three months ended February 28, 2022 and 2021 as follows:

	Three Months Ended	
	February 28, 2022	February 28, 2021
Total share-based compensation	\$ 15,169	\$ 7,118
Tax benefit recorded in the provision for income taxes	(3,852)	(1,780)
Effect on net income	\$ 11,317	\$ 5,338

Share-based compensation expense is included in selling, general and administrative expenses in the consolidated statements of operations.

NOTE 5—BALANCE SHEET COMPONENTS:

Cash, cash equivalents and restricted cash:

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated balance sheets that sum to the total of the same amounts shown in the consolidated statements of cash flows:

	As of	
	February 28, 2022	November 30, 2021
Cash and cash equivalents	\$ 142,157	\$ 182,038
Restricted cash included in other current assets	1,003	972
Cash, cash equivalents and restricted cash	\$ 143,160	\$ 183,010

Restricted cash balances relate primarily to restrictions placed on cash deposits by banks as collateral for the issuance of bank guarantees and the terms of a government grant.

Accounts receivable, net:

Accounts receivable, net is comprised of the following as of February 28, 2022 and 2021:

	As of	
	February 28, 2022	November 30, 2021
Billed accounts receivable	\$ 781,807	\$ 714,032
Unbilled accounts receivable	549,835	499,342
Less: Allowance for doubtful accounts	(6,904)	(5,421)
Accounts receivable, net	\$ 1,324,738	\$ 1,207,953

Allowance for doubtful trade receivables:

Presented below is a progression of the allowance for doubtful trade receivables:

	Three Months Ended	
	February 28,	
	2022	2021
Balance at beginning of period	\$ 5,421	\$ 8,963
Net additions (reductions)	1,948	(2,554)
Write-offs and reclassifications	(465)	(170)
Balance at end of period	\$ 6,904	\$ 6,239

Property and equipment, net:

The following tables summarize the carrying amounts and related accumulated depreciation for property and equipment as of February 28, 2022 and November 30, 2021:

	As of	
	February 28, 2022	November 30, 2021
Land	\$ 27,663	\$ 27,677
Equipment, computers and software	512,346	488,270
Furniture and fixtures	92,202	90,442
Buildings, building improvements and leasehold improvements	376,993	364,166
Construction-in-progress	12,350	10,741
Total property and equipment, gross	\$ 1,021,554	\$ 981,296
Less: Accumulated depreciation	(604,680)	(574,152)
Property and equipment, net	\$ 416,874	\$ 407,144

Shown below are the countries where 10% or more of the Company's property and equipment, net are located as of February 28, 2022 and November 30, 2021:

	As of	
	February 28, 2022	November 30, 2021
Property and equipment, net:		
United States	\$ 113,231	\$ 101,333
Philippines	84,497	87,548
India	46,430	46,167
Others	172,716	172,096
Total	\$ 416,874	\$ 407,144

Goodwill:

The following table summarizes the changes in the Company's goodwill for the three months ended February 28, 2022:

Balance as of November 30, 2021	\$	1,813,502
Acquisition		1,132,017
Foreign exchange translation		(3,080)
Balance as of February 28, 2022	\$	<u>2,942,439</u>

Intangible assets, net:

The following tables summarize the carrying amounts and related accumulated amortization for intangible assets as of February 28, 2022 and November 30, 2021:

	As of February 28, 2022			As of November 30, 2021		
	Gross amounts	Accumulated amortization	Net amounts	Gross amounts	Accumulated amortization	Net amounts
Customer relationships	\$ 1,745,122	\$ (729,092)	\$ 1,016,030	\$ 1,347,961	\$ (694,701)	\$ 653,260
Technology	74,328	(11,400)	62,928	10,835	(8,900)	1,935
Trade names	11,721	(6,807)	4,914	6,724	(6,391)	333
Non-compete agreements	2,200	(130)	2,070	—	—	—
	<u>\$ 1,833,371</u>	<u>\$ (747,429)</u>	<u>\$ 1,085,942</u>	<u>\$ 1,365,520</u>	<u>\$ (709,992)</u>	<u>\$ 655,528</u>

Estimated future amortization expense of the Company's intangible assets is as follows:

Fiscal years ending November 30,

2022 (remaining nine months)	\$	124,838
2023		154,781
2024		140,805
2025		129,176
2026		113,544
Thereafter		422,798
Total	\$	<u>1,085,942</u>

Accumulated other comprehensive income (loss):

The components of accumulated other comprehensive income (loss) (“AOCI”), net of taxes, were as follows:

	Three Months Ended February 28, 2022 and 2021			
	Unrecognized gains (losses) on defined benefit plan, net of taxes	Unrealized gains (losses) on cash flow hedges, net of taxes	Foreign currency translation adjustments, net of taxes	Total
Balance, November 30, 2020	\$ (38,584)	\$ 29,239	\$ 5,531	\$ (3,814)
Other comprehensive income (loss) before reclassification	(376)	(7,070)	6,306	(1,140)
Reclassification of gains from other comprehensive income (loss)	—	(9,171)	—	(9,171)
Balances at February 28, 2021	\$ (38,960)	\$ 12,998	\$ 11,837	\$ (14,125)
Balance, November 30, 2021	\$ (22,745)	\$ (1,403)	\$ (46,378)	\$ (70,526)
Other comprehensive income (loss) before reclassification	773	(2,760)	(13,839)	(15,826)
Reclassification of gains from other comprehensive income (loss)	—	(673)	—	(673)
Balances at February 28, 2022	\$ (21,972)	\$ (4,836)	\$ (60,217)	\$ (87,025)

Refer to Note 6 for the location of gains and losses on cash flow hedges reclassified from other comprehensive income (loss) to the consolidated statements of operations. Reclassifications of amortization of actuarial (gains) losses of defined benefit plans is recorded in “Other expense (income), net” in the consolidated statement of operations.

Restructuring:

The following table presents the activity related to liabilities for restructuring charges of previous acquisitions for the three months ended February 28, 2022 and 2021:

	Three Months Ended	
	February 28, 2022 and 2021	
Restructuring costs	Facility and exit costs	
Accrued balance as of November 30, 2020	\$	17,810
Cash payments		(2,004)
Accrued balance as of February 28, 2021	\$	15,806
Accrued balance as of November 30, 2021	\$	12,406
Additional accrual during the period		47
Cash payments		(1,002)
Accrued balance as of February 28, 2022	\$	11,451

NOTE 6—DERIVATIVE INSTRUMENTS:

In the ordinary course of business, the Company is exposed to foreign currency risk and credit risk. The Company enters into transactions, and owns monetary assets and liabilities, that are denominated in currencies other than the legal entity’s functional currency. The Company may enter into forward contracts, option contracts, or other

derivative instruments to offset a portion of the risk on expected future cash flows, earnings, net investments in certain non-U.S. legal entities and certain existing assets and liabilities. However, the Company may choose not to hedge certain exposures for a variety of reasons including, but not limited to, accounting considerations and the prohibitive economic cost of hedging particular exposures. There can be no assurance the hedges will offset more than a portion of the financial impact resulting from movements in foreign currency exchange or interest rates. Generally, the Company does not use derivative instruments to cover equity risk and credit risk. The Company's hedging program is not used for trading or speculative purposes.

All derivatives are recognized on the consolidated balance sheets at their fair values. Changes in the fair value of derivatives are recorded in the consolidated statements of operations, or as a component of AOCI in the consolidated balance sheets, as discussed below.

Cash Flow Hedges

To mitigate the risk of fluctuations in foreign currency exchange rates on gross margins, certain of the Company's legal entities with functional currencies that are not U.S. dollars may hedge a portion of forecasted revenue or costs not denominated in the entities' functional currencies. These instruments mature at various dates through February 2024. Gains and losses on cash flow hedges are recorded in AOCI until the hedged item is recognized in earnings. Deferred gains and losses associated with cash flow hedges of foreign currency revenue are recognized as a component of "Revenue" in the same period as the related revenue is recognized, and deferred gains and losses related to cash flow hedges of foreign currency costs are recognized as a component of "Cost of revenue" or "Selling, general and administrative expenses" in the same period as the related costs are recognized. Derivative instruments designated as cash flow hedges must be de-designated as hedges when it is probable the forecasted hedged transaction will not occur in the initially identified time period or within a subsequent two-month time period. Deferred gains and losses in AOCI associated with such derivative instruments are reclassified into earnings in the period of de-designation. Any subsequent changes in fair value of such derivative instruments are recorded in earnings unless they are re-designated as hedges of other transactions.

Non-Designated Derivatives

The Company uses short-term forward contracts to offset the foreign exchange risk of assets and liabilities denominated in currencies other than the functional currency of the Company's legal entities that own the asset or liability. These contracts, which are not designated as hedging instruments, mature or settle within twelve months. Derivatives that are not designated as hedging instruments are adjusted to fair value through earnings in the financial statement line item to which the derivative relates.

Fair Values of Derivative Instruments in the Consolidated Balance Sheets

The fair values of the Company's derivative instruments are disclosed in Note 7 and summarized in the table below:

Balance Sheet Line Item	Value as of	
	February 28, 2022	November 30, 2021
Derivative instruments not designated as hedging instruments:		
Foreign exchange forward contracts (notional value)	\$ 1,456,904	\$ 1,415,447
Other current assets	9,745	10,058
Other accrued liabilities	6,300	12,542
Derivative instruments designated as cash flow hedges:		
Foreign exchange forward contracts (notional value)	\$ 921,264	\$ 918,097
Other current assets and other assets	5,228	7,851
Other accrued liabilities and other long-term liabilities	11,723	9,736

Volume of activity

The notional amounts of foreign exchange forward contracts represent the gross amounts of foreign currency, including, principally, the Philippine peso, the Indian rupee, the euro, the British pound, the Canadian dollar and the Japanese yen, that will be bought or sold at maturity. The notional amounts for outstanding derivative instruments provide one measure of the transaction volume outstanding and do not represent the amount of the Company's exposure to credit or market loss. The Company's exposure to credit loss and market risk will vary over time as currency exchange rates change.

The Effect of Derivative Instruments on AOCI and the Consolidated Statements of Operations

The following table shows the gains and losses, before taxes, of the Company's derivative instruments designated as cash flow hedges and not designated as hedging instruments in other comprehensive income ("OCI"), and the consolidated statements of operations for the periods presented:

	Locations of gain (loss) in statement of operations	Three Months Ended	
		February 28, 2022	February 28, 2021
Derivative instruments designated as cash flow hedges			
<u>Losses recognized in OCI:</u>			
Foreign exchange forward contracts		\$ (3,707)	\$ (9,325)
<u>Gains reclassified from AOCI into income:</u>			
Foreign exchange forward contracts			
Gain reclassified from AOCI into income	Cost of revenue for services	\$ 415	\$ 8,835
Gain reclassified from AOCI into income	Selling, general and administrative expenses	490	3,358
Total		\$ 905	\$ 12,193
Derivative instruments not designated as hedging instruments:			
Loss recognized from foreign exchange forward contracts, net ⁽¹⁾	Other expense (income), net	\$ (1,012)	\$ (2,767)

⁽¹⁾ The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies.

There were no material gain or loss amounts excluded from the assessment of effectiveness. Existing net losses in AOCI that are expected to be reclassified into earnings in the normal course of business within the next twelve months are \$6,376.

Offsetting of Derivatives

In the consolidated balance sheets, the Company does not offset derivative assets against liabilities in master netting arrangements.

Credit exposure for derivative financial instruments is limited to the amounts, if any, by which the counterparties' obligations under the contracts exceed the Company's obligations to the counterparties. The Company manages the potential risk of credit losses through careful evaluation of counterparty credit standing and selection of counterparties from a limited group of financial institutions.

NOTE 7—FAIR VALUE MEASUREMENTS:

The Company's fair value measurements are classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table summarizes the valuation of the Company's investments and financial instruments that are measured at fair value on a recurring basis:

	As of February 28, 2022				As of November 30, 2021			
	Total	Fair value measurement category			Total	Fair value measurement category		
		Level 1	Level 2	Level 3		Level 1	Level 2	Level 3
Assets:								
Cash equivalents	\$ 80,885	\$ 80,885	\$ —	\$ —	\$ 77,332	\$ 77,332	\$ —	\$ —
Foreign government bond	1,704	1,704	—	—	1,446	1,446	—	—
Forward foreign currency exchange contracts	14,973	—	14,973	—	17,909	—	17,909	—
Liabilities:								
Forward foreign currency exchange contracts	\$ 18,023	\$ —	\$ 18,023	\$ —	\$ 22,278	\$ —	\$ 22,278	\$ —

The Company's cash equivalents consist primarily of highly liquid investments in money market funds and term deposits with maturity periods of three months or less. The carrying values of cash equivalents approximate fair value since they are near their maturity. Investment in foreign government bond classified as an available-for-sale debt security is recorded at fair value based on quoted market prices. The fair values of forward exchange contracts are measured based on the foreign currency spot and forward rates quoted by banks or foreign currency dealers. Fair values of long-term foreign currency exchange contracts are measured using valuations based upon quoted prices for similar assets and liabilities in active markets and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. The effect of nonperformance risk on the fair value of derivative instruments was not material as of February 28, 2022 and November 30, 2021.

The carrying values of term deposits with maturities less than one year, accounts receivable and accounts payable approximate fair value due to their short maturities and interest rates that are variable in nature. The carrying values of the outstanding balance on the Term Loan under the Company's Credit Facility and the outstanding balance on the Securitization Facility approximate their fair values since they bear interest rates that are similar to existing market rates.

During the three months ended February 28, 2022 and 2021, there were no transfers between the fair value measurement category levels.

NOTE 8—BORROWINGS:

Borrowings consist of the following:

	As of	
	February 28, 2022	November 30, 2021
Credit Facility - current portion of Term Loan component	\$ 78,750	\$ —
Current portion of long term debt	78,750	—
Credit Facility - Term Loan component	\$ 2,021,250	\$ —
Credit Facility - Prior Term Loan component	—	700,000
Securitization Facility	254,000	105,000
Long-term debt, before unamortized debt discount and issuance costs	2,275,250	805,000
Less: unamortized debt discount and issuance costs	(8,604)	(2,983)
Long-term debt, net	\$ 2,266,646	\$ 802,017

Credit Facility

On December 27, 2021, in connection with the closing of the acquisition of PK, Concentrix entered into an amendment of its senior secured credit facility (the “Credit Facility”) (i) to refinance the previously existing term loan (the “Prior Term Loan”) with a new term loan, which was fully advanced, in the aggregate outstanding principal amount of \$2,100,000 (the “Term Loan”), (ii) to increase the revolving credit facility to \$1,000,000 (the “Revolver”), (iii) to extend the maturity of the Credit Facility from November 30, 2025 to December 27, 2026, (iv) to replace LIBOR with SOFR (the Secured Overnight Financing Rate) as the primary reference rate used to calculate interest on the loans under the Credit Facility, and (v) to modify the commitment fee on the unused portion of the Revolver and the margins in excess of the reference rates at which the loans under the Credit Facility bear interest. The proceeds from the Term Loan and additional borrowings on the Securitization Facility were used to repay the principal amounts outstanding on the Prior Term Loan and to finance the acquisition of PK, including the repayment of certain indebtedness of PK and the payment of fees and expenses in connection with the acquisition of PK.

As amended, borrowings under the Credit Facility bear interest, in the case of SOFR rate loans, at a per annum rate equal to the applicable SOFR rate (but not less than 0.0%), plus an adjustment of between 0.10% and 0.25% depending on the interest period of each SOFR loan, plus an applicable margin, which ranges from 1.25% to 2.00%, based on Concentrix’ consolidated leverage ratio. Borrowings under the Credit Facility that are not SOFR rate loans bear interest at a per annum rate equal to (i) the greatest of (a) the Federal Funds Rate in effect on such day plus ½ of 1.00%, (b) the rate of interest last publicly announced by Bank of America as its “prime rate” and (c) the term SOFR rate plus 1.00%, plus (ii) an applicable margin, which ranges from 0.25% to 1.00%, based on Concentrix’ consolidated leverage ratio. As amended, the commitment fee on the unused portion of the Revolver ranges from 22.5 to 30 basis points, based on Concentrix’ consolidated leverage ratio.

Beginning August 31, 2022, the outstanding principal of the Term Loan will be payable in quarterly installments of \$26.25 million, with the unpaid balance due in full on the maturity date.

Concentrix may request, subject to obtaining commitments from any participating lenders and certain other conditions, incremental commitments to increase the amount of the Revolver or the Term Loan available under the Credit Facility in an aggregate principal amount of up to \$450,000, plus an additional amount, so long as after giving effect to the incurrence of such additional amount, the Company’s pro forma first lien leverage ratio (as defined in the Credit Facility) would not exceed 3.00 to 1.00.

Obligations under the Credit Facility are secured by substantially all of the assets of Concentrix and certain of its U.S. subsidiaries and are guaranteed by certain of its U.S. subsidiaries.

The Credit Facility contains various loan covenants that restrict the ability of Concentrix and its subsidiaries to take certain actions, including, incurrence of indebtedness, creation of liens, mergers or consolidations, dispositions of assets, repurchase or redemption of capital stock, making certain investments, entering into certain transactions with affiliates or changing the nature of their business. In addition, the Credit Facility contains financial covenants that require Concentrix to maintain at the end of each fiscal quarter, (i) a consolidated leverage ratio (as defined in the Credit Facility) not to exceed 3.75 to 1.0 and (ii) a consolidated interest coverage ratio (as defined in the Credit Facility) equal to or greater than 3.00 to 1.0. The Credit Facility also contains various customary events of default, including payment defaults, defaults under certain other indebtedness, and a change of control of Concentrix.

Concentrix initially entered into the Credit Facility on October 16, 2020, and the Credit Facility initially provided for the extension of revolving loans of up to \$600,000 and term loan borrowings of up to \$900,000. On November 30, 2020, in connection with the spin-off, the Company incurred \$900,000 of term loan borrowings under the Credit Facility. Substantially all of the proceeds from such indebtedness, net of debt issuance costs, were transferred to TD SYNEX on November 30, 2020 to eliminate debt owed by Concentrix to TD SYNEX and in exchange for the contribution of certain Concentrix trademarks from TD SYNEX to Concentrix.

Beginning May 31, 2021, the outstanding principal of the Prior Term Loan was payable in quarterly installments of \$11,250, with the unpaid balance due in full on the maturity date. During the fiscal year ended November 30, 2021, the Company paid \$200,000 of the principal balance on the Prior Term Loan, including \$166,250 of voluntary prepayments, without penalty.

At February 28, 2022 and November 30, 2021, no amounts were outstanding under the Revolver.

Securitization Facility

On October 30, 2020, Concentrix entered into a \$350,000 accounts receivable securitization facility (the "Securitization Facility") pursuant to certain agreements, including a Receivables Financing Agreement and a Receivables Purchase Agreement. On November 30, 2020, in connection with the spin-off, the Company incurred \$250,000 of borrowings under the Securitization Facility. Substantially all of the proceeds from such indebtedness were transferred to TD SYNEX on November 30, 2020 to eliminate debt owed by Concentrix to TD SYNEX and in exchange for the contribution of certain Concentrix trademarks from TD SYNEX to Concentrix.

Under the Securitization Facility, Concentrix and certain of its subsidiaries (the "Originators") sell or otherwise transfer all of their accounts receivable to a special purpose bankruptcy-remote subsidiary of Concentrix (the "Borrower") that grants a security interest in the receivables to the lenders in exchange for available borrowings of up to \$350,000. The amount received under the Securitization Facility is recorded as debt on the Company's consolidated balance sheets. Borrowing availability under the Securitization Facility may be limited by the Company's accounts receivable balances, changes in the credit ratings of the clients comprising the receivables, client concentration levels in the receivables, and certain characteristics of the accounts receivable being transferred (including factors tracking performance of the accounts receivable over time). The Securitization Facility has a termination date of October 28, 2022. Amounts drawn under this Securitization Facility have been classified as long-term debt within the consolidated balance sheet based on the Company's ability and intent to refinance on a long-term basis as of February 28, 2022.

Borrowings under the Securitization Facility bear interest with respect to loans that are funded through the issuance of commercial paper at the applicable commercial paper rate plus a spread of 1.05% and, otherwise, at a per annum rate equal to the applicable LIBOR rate plus a spread of 1.15%. Concentrix is also obligated to pay a monthly undrawn fee that ranges from 30 to 37.5 basis points based on the portion of the Securitization Facility that is undrawn.

The Securitization Facility contains various affirmative and negative covenants, including a consolidated leverage ratio covenant that is consistent with the Credit Facility and customary events of default, including payment

defaults, defaults under certain other indebtedness, a change in control of Concentrix, and certain events negatively affecting the overall credit quality of the transferred accounts receivable.

The Borrower's sole business consists of the purchase or acceptance through capital contributions of the receivables and related security from the Originators and the subsequent retransfer of or granting of a security interest in such receivables and related security to the administrative agent under the Securitization Facility for the benefit of the lenders. The Borrower is a separate legal entity with its own separate creditors who will be entitled, upon its liquidation, to be satisfied out of the Borrower's assets prior to any assets or value in the Borrower becoming available to the Borrower's equity holders, and the assets of the Borrower are not available to pay creditors of Concentrix and its subsidiaries.

Covenant compliance

As of February 28, 2022, Concentrix was in compliance with all covenants for the above arrangements.

NOTE 9—EARNINGS PER SHARE:

Basic and diluted earnings per common share ("EPS") are computed using the two-class method, which is an earnings allocation formula that determines EPS for each class of common stock and participating security. The Company's restricted stock awards are considered participating securities because they are legally issued at the grant date and holders have a non-forfeitable right to receive dividends.

	Three Months Ended	
	February 28, 2022	February 28, 2021
Basic earnings per common share:		
Net income	\$ 110,273	\$ 88,811
Less: net income allocated to participating securities ⁽¹⁾	(1,554)	(1,060)
Net income attributable to common stockholders	\$ 108,719	\$ 87,751

NOTE 10—REVENUE:**Disaggregated revenue**

In the following table, the Company's revenue is disaggregated by primary industry verticals:

	Three Months Ended	
	February 28, 2022	February 28, 2021
Industry vertical:		
Technology and consumer electronics	\$ 470,199	\$ 412,818
Communications and media	260,643	248,790
Retail, travel and ecommerce	284,917	239,001
Banking, financial services and insurance	243,246	209,084
Healthcare	150,136	125,224
Other	126,911	118,361
Total	\$ 1,536,052	\$ 1,353,278

NOTE 11—PENSION AND EMPLOYEE BENEFITS PLANS:

The Company has a 401(k) plan in the United States under which eligible employees may contribute up to the maximum amount as provided by law. Employees become eligible to participate in the 401(k) plan on the first day of the month after their employment date. The Company may make discretionary contributions under the plan. Employees in most of the Company's non-U.S. legal entities are covered by government mandated defined contribution plans. During the three months ended February 28, 2022 and 2021, the Company contributed \$21,812 and \$20,174, respectively, to defined contribution plans.

Defined Benefit Plans

The Company has defined benefit pension and retirement plans for eligible employees of certain non-U.S. legal entities. For eligible employees in the U.S., the Company maintains a frozen defined benefit pension plan ("the cash balance plan"), which includes both a qualified and non-qualified portion. The pension benefit formula for the cash balance plan is determined by a combination of compensation, age-based credits and annual guaranteed interest credits. The qualified portion of the cash balance plan has been funded through contributions made to a trust fund.

The Company maintains funded or unfunded defined benefit pension or retirement plans for certain eligible employees in the Philippines, Malaysia, India, and France. Benefits under these plans are primarily based on years of service and compensation during the years immediately preceding retirement or termination of participation in the plans.

Net benefit costs related to defined benefit plans were \$5,722 and \$3,311, during the three months ended February 28, 2022 and 2021, respectively. On an aggregate basis, the plans were underfunded by \$102,276 and \$104,689 at February 28, 2022 and November 30, 2021, respectively.

NOTE 12—INCOME TAXES:

Income taxes consist of current and deferred tax expense resulting from income earned in domestic and international jurisdictions. The effective tax rates for the three months ended February 28, 2022 and 2021 were impacted by the geographic mix of worldwide income and certain discrete items.

The liability for unrecognized tax benefits was \$56,046 and \$56,308 at February 28, 2022 and November 30, 2021, respectively, and is included in other long-term liabilities in the consolidated balance sheets. As of February 28, 2022 and November 30, 2021, the total amount of unrecognized tax benefits that would affect income

tax expense if recognized in the consolidated financial statements was \$48,241 and \$48,438, respectively. This amount includes net interest and penalties of \$8,884 and \$8,861 for the respective periods. The net interest and penalties balance for November 30, 2021 includes an immaterial prior period disclosure adjustment to properly present the amount. This disclosure adjustment resulted in no impact to the Company's consolidated balance sheets or consolidated statement of operations for any period presented. The Company believes that it is reasonably possible that the total amount of unrecognized tax benefits could decrease between approximately \$6,484 and \$12,693 in the next twelve months; however, actual developments in this area could differ from those currently expected.

NOTE 13— LEASES:

The Company leases certain of its facilities and equipment under operating lease agreements, which expire in various periods through 2035. The Company's finance leases are not material.

The following table presents the various components of operating lease costs:

	Three Months Ended	
	February 28, 2022	February 28, 2021
Operating lease cost	\$ 50,802	\$ 51,441
Short-term lease cost	4,337	3,708
Variable lease cost	11,984	10,120
Sublease income	(735)	(472)
Total operating lease cost	\$ 66,388	\$ 64,797

The following table presents a maturity analysis of expected undiscounted cash flows for operating leases on an annual basis for the next five fiscal years and thereafter as of February 28, 2022:

Fiscal Years Ending November 30,

2022 (remaining nine months)	\$ 145,077
2023	160,906
2024	121,676
2025	76,990
2026	32,099
Thereafter	21,730
Total payments	558,478
Less: imputed interest*	55,638
Total present value of lease payments	\$ 502,840

*Imputed interest represents the difference between undiscounted cash flows and discounted cash flows.

The following amounts were recorded in the consolidated balance sheets related to the Company's operating leases:

		As of	
		February 28, 2022	November 30, 2021
Operating lease ROU assets	Other assets, net	\$ 483,083	\$ 489,171
Current operating lease liabilities	Other accrued liabilities	158,865	153,329
Non-current operating lease liabilities	Other long-term liabilities	343,975	354,471

The following table presents supplemental cash flow information related to the Company's operating leases. Cash payments related to variable lease costs and short-term leases are not included in the measurement of operating lease liabilities, and, as such, are excluded from the amounts below:

	Three Months Ended	
	February 28, 2022	February 28, 2021
Cash paid for amounts included in the measurement of lease liabilities	\$ 50,044	\$ 54,004
Non-cash ROU assets obtained in exchange for lease liabilities	37,492	14,873

The weighted-average remaining lease term and discount rate as of February 28, 2022 and November 30, 2021 were as follows:

	As of	
	February 28, 2022	November 30, 2021
Weighted-average remaining lease term (years)	3.68	3.81
Weighted-average discount rate	5.50 %	5.82 %

NOTE 14—COMMITMENTS AND CONTINGENCIES:

From time to time, the Company receives notices from third parties, including customers and suppliers, seeking indemnification, payment of money or other actions in connection with claims made against them. Also, from time to time, the Company has been involved in various bankruptcy preference actions where the Company was a supplier to the companies now in bankruptcy. In addition, the Company is subject to various other claims, both asserted and unasserted, that arise in the ordinary course of business. The Company evaluates these claims and records the related liabilities. It is possible that the liabilities ultimately incurred by the Company could differ from the amounts recorded.

Under the separation and distribution agreement with TD SYNEX, the Company agreed to indemnify TD SYNEX, each of its subsidiaries and each of their respective directors, officers and employees from and against all liabilities allocated to Concentrix under the separation and distribution agreement, which are generally those liabilities that relate to the CX business and the Company's business activities, whether incurred prior to or after the spin-off.

Under the tax matters agreement with TD SYNEX, if the spin-off fails to qualify for tax-free treatment, the Company is generally required to indemnify TD SYNEX for any taxes resulting from the spin-off (and related costs and other damages) to the extent such amounts result from (1) an acquisition of all or a portion of the Company's equity securities or assets by any means, (2) any action or failure to act by the Company after the distribution affecting the voting rights of the Company's stock, (3) other actions or failures to act by the Company, or (4) certain breaches of the Company's agreements and representations in the tax matters agreement. The Company's indemnification obligations to TD SYNEX and its subsidiaries, officers, directors and employees are not limited by any maximum amount.

The Company does not believe that the above commitments and contingencies will have a material adverse effect on the Company's results of operations, financial position or cash flows.

NOTE 15—STOCKHOLDERS' EQUITY:**Share repurchase program**

In September 2021, the Company's board of directors authorized the Company to purchase up to \$500,000 of the Company's outstanding shares of common stock from time to time as market and business conditions warrant, including through open market purchases or Rule 10b5-1 trading plans. The repurchase program has no termination date and may be suspended or discontinued at any time. During the three months ended February 28, 2022, the Company did not repurchase any shares under the program. At February 28, 2022, approximately \$474,900 remained available for share repurchases under the existing authorization from the Company's board of directors.

Dividends

During fiscal years 2022 and 2021, the Company has paid the following dividends per share approved by the Company's board of directors:

Announcement Date	Record Date	Per Share Dividend Amount	Payment Date
September 27, 2021	October 22, 2021	\$0.25	November 2, 2021
January 18, 2022	January 28, 2022	\$0.25	February 8, 2022

On March 29, 2022, the Company announced a cash dividend of \$0.25 per share to stockholders of record as of April 29, 2022, payable on May 10, 2022.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes to those consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q, as well as "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended November 30, 2021, as filed with the Securities and Exchange Commission on January 28, 2022. References to "we," "our," "us," "the Company" or "Concentrix" refer to Concentrix Corporation and its subsidiaries.

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements include, but are not limited to, statements regarding our expected future financial condition, results of operations, effective tax rate, cash flows, leverage, liquidity, business strategy, competitive position, demand for our services and seasonality of our business, international operations, acquisition opportunities and the anticipated impact of acquisitions, capital allocation and dividends, growth opportunities, spending, capital expenditures and investments, competition and market forecasts, industry trends, and statements that include words such as believe, expect, may, will, provide, could and should and other similar expressions. These forward-looking statements are inherently uncertain and involve substantial risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. Risks and uncertainties include, among other things: risks related to general economic conditions, including uncertainty related to the COVID-19 pandemic and its impact on the global economy, supply chains, inflation, our business and the business of our clients, and uncertainty related to the effect of the conflict in Ukraine on the global economy; other communicable diseases, natural disasters, adverse weather conditions or public health crises; cyberattacks on our or our clients' networks and information technology systems; the inability to protect personal and proprietary information; the failure of our staff and contractors to adhere to our and our clients' controls and processes; the inability to execute on our digital customer experience strategy; the inability to successfully identify, complete or integrate strategic acquisitions or investments, including our integration of PK; competitive conditions in our industry and consolidation of our competitors; geopolitical, economic and climate or weather related risks in regions with a significant concentration of our operations; higher than expected tax liabilities; the loss of key personnel; the demand for customer experience solutions and technology; variability in demand by our clients or the early termination of our client contracts; the level of business activity of our clients and the market acceptance and performance of their products and services; the operability of our communication services and information technology systems and networks; changes in law, regulations or regulatory guidance; currency exchange rate fluctuations; damage to our reputation through the actions or inactions of third parties; increases in the cost of labor; investigative or legal actions; and other risks that are described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended November 30, 2021. We do not intend to update forward-looking statements, which speak only as of the date hereof, unless otherwise required by law.

Concentrix, the Concentrix Logo, and all other Concentrix company, product and services names and slogans are trademarks or registered trademarks of Concentrix Corporation and its subsidiaries. Concentrix and the Concentrix Logo Reg. U.S. Pat. & Tm. Off. and applicable non-U.S. jurisdictions. Other names and marks are the property of their respective owners.

Overview and Basis of Presentation

Concentrix is a leading global provider of Customer Experience ("CX") solutions and technology that help iconic and disruptive brands drive deep understanding, full lifecycle engagement, and differentiated experiences for their end-customers. We provide end-to-end capabilities, including CX process optimization, technology innovation and design engineering, front- and back-office automation, analytics and business transformation services to clients in five primary industry verticals. Our differentiated portfolio of solutions supports Fortune Global 500 as well as new economy clients across the globe in their efforts to deliver an optimized, consistent brand experience across all channels of communication, such as voice, chat, email, social media, asynchronous messaging, and custom applications. We strive to deliver exceptional services globally supported by our deep industry knowledge, technology and security practices, talented people, and digital and analytics expertise.

We generate revenue from performing services that are generally tied to our clients' products and services. Any shift in business or the size of the market for our clients' products or services, or any failure of technology or failure of acceptance of our clients'

products or services in the market may impact our business. The staff turnover rate in our business is high, as is the risk of losing experienced team members. High staff turnover rates may increase costs and decrease operating efficiencies and productivity.

PK Acquisition

On December 27, 2021, we completed our acquisition of PK, a leading CX design engineering company with more than 5,000 staff in four countries. PK creates pioneering experiences that accelerate digital outcomes for their clients' customers, partners and staff. The acquisition of PK expands our scale in the digital IT services market and supports our growth strategy of investing in digital transformation to deliver exceptional customer experiences. The addition of the PK staff and technology to our team further strengthens our capabilities in CX design and development, artificial intelligence ("AI"), intelligent automation, and customer loyalty.

Spin-off

On December 1, 2020, the previously announced separation (the "separation") of Concentrix and our technology-infused CX solutions business from TD SYNEX was completed through a tax-free distribution of all of the issued and outstanding shares of our common stock to TD SYNEX stockholders (the distribution and, together with the separation, the "spin-off"). TD SYNEX stockholders received one share of our common stock for each share of TD SYNEX common stock held as of the close of business on November 17, 2020. As a result of the spin-off, we became an independent public company and our common stock commenced trading on the Nasdaq Stock Market ("Nasdaq") under the symbol "CNXC" on December 1, 2020. In connection with the spin-off, on November 30, 2020, we entered into a separation and distribution agreement, an employee matters agreement, a tax matters agreement and a commercial agreement with TD SYNEX to set forth the principal actions to be taken in connection with the spin-off and define our ongoing relationship with TD SYNEX after the spin-off.

Risks and uncertainties related to the COVID-19 pandemic

In December 2019, there was an outbreak of a new strain of coronavirus ("COVID-19"), which was declared a pandemic by the World Health Organization in March 2020. The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and labor force participation, and created significant volatility and disruption of financial markets. We successfully transitioned a significant portion of our workforce to a remote working environment throughout the second quarter of 2020 and implemented a number of safety and social distancing measures in our sites to protect the health and safety of our staff. During the three months ended February 28, 2022, almost all of our workforce was productive, but we experienced the continued effects of the COVID-19 pandemic, as variants caused new waves of COVID-19 cases around the globe.

The extent of the continued impact of the COVID-19 pandemic on our operational and financial performance, including our ability to execute our business strategies and initiatives in the expected time frame, will depend on future developments, including the duration, spread and severity of the pandemic, the evolution of the virus and the effects of mutations in its genetic code, country and state restrictions regarding virus containment, the availability and effectiveness of vaccines and treatment options, accessibility to the Company's delivery and operations locations, our continued utilization of remote work environments in response to future health and safety restrictions, and the effect on our clients' businesses and the demand for their products and services, all of which are uncertain and cannot be predicted. We are unable to predict how long the pandemic conditions will persist in regions in which we operate, if or when countries or localities may experience an increase in COVID-19 cases, what additional measures may be introduced by governments or our clients in response to the pandemic generally or to an increase in COVID-19 cases in a particular country or locality, and the effect of any such additional measures on our business. As a result, many of the estimates and assumptions involved in preparation of the consolidated financial statements included in this Quarterly Report on Form 10-Q required increased judgment and carry a higher degree of variability and volatility. As events continue to evolve with respect to the pandemic and the global recovery from the pandemic, our estimates may materially change in future periods. Accordingly, current results and financial condition discussed herein may not be indicative of future operating results and trends.

Revenue and Cost of Revenue

We generate revenue through the provision of CX solutions and technology to our clients pursuant to client contracts. Our client contracts typically consist of a master services agreement, supported in most cases by multiple statements of work, which contains the terms and conditions of each contracted solution. Our client contracts can range from less than one year to over five years in term and are subject to early termination by our clients for any reason, typically with 30 to 90 days' notice.

Our CX solutions and technology are generally characterized by flat unit prices. Approximately 95% of our revenue is recognized as services are performed, based on staffing hours or the number of client customer transactions handled using contractual rates. Remaining revenue from the sale of these solutions are typically recognized as the services are provided over the duration of the contract using contractual rates.

Our cost of revenue consists primarily of personnel costs related to the delivery of our solutions. The costs of our revenue can be impacted by the mix of client contracts, where we deliver the CX solutions, additional lead time for programs to be fully scalable, and transition and initial set-up costs. Our cost of revenue as a percentage of revenue has also fluctuated in the past, based primarily on our ability to achieve economies of scale, the management of our operating expenses, and the timing and costs incurred related to our acquisitions and investments.

In the first quarter of 2022 and 2021, approximately 78% and 83% of our consolidated revenue was generated from our non-U.S. operations, and approximately 66% and 62%, respectively, of our consolidated revenue was priced in U.S. dollars and we expect this to continue. As a result, we have certain client contracts that are priced in non-U.S. dollar currencies for which a substantial portion of the costs to deliver the services are in other currencies. Accordingly, our revenue may be earned in currencies that are different from the currencies in which we incur corresponding expenses. Fluctuations in the value of currencies, such as the Philippine peso, the Indian rupee, and the Canadian dollar, against the U.S. dollar or other currencies in which we bill our clients, and inflation in the local economies in which these delivery centers are located, can impact the operating and labor costs in these delivery centers, which can result in reduced profitability. As a result, our revenue growth, costs and profitability have been impacted, and we expect will continue to be impacted, by fluctuations in foreign currency exchange rates.

Margins

Our gross margins fluctuate and can be impacted by the mix of client contracts, services provided, shifts in the geography from which our CX services are delivered, client volume trends, the amount of lead time that is required for programs to become fully scalable, and transition and set-up costs. Our operating margin fluctuates based on changes in gross margins as well as overall volume levels, as we are able to gain scale efficiencies in our selling, general and administrative costs in periods of larger volume.

Economic and Industry Trends

The CX solutions industry in which we operate is competitive. Clients' performance measures are based on competitive pricing terms and quality of services. Further, there can be competitive pressure in various labor markets, which could result in increased labor costs. Accordingly, we could be subject to pricing and labor cost pressures and may experience a decrease in revenue and operating income. Our business operates in over 40 countries across 6 continents. We have significant concentrations in the Philippines, India, the United States, the United Kingdom, Canada, throughout Europe, China and Japan. Accordingly, we would be impacted by economic strength or weakness in these geographies and by the strengthening or weakening of local currencies relative to the U.S. dollar.

Seasonality

Our revenue and margins fluctuate with the underlying trends in our clients' businesses and trends in the level of consumer activity. As a result, our revenue and margins are typically higher in the fourth quarter of the year than in any other quarter.

Critical Accounting Policies and Estimates

During the three months ended February 28, 2022, there were no material changes to our critical accounting policies and estimates previously disclosed in our Annual Report on Form 10-K for the fiscal year ended November 30, 2021.

Results of Operations – Three Months Ended February 28, 2022 and 2021

	Three Months Ended	
	February 28, 2022	February 28, 2021
(\$ in thousands)		
Revenue	\$ 1,536,052	\$ 1,353,278
Cost of revenue	997,918	867,228
Gross profit	538,134	486,050
Selling, general and administrative expenses	390,389	351,161
Operating income	147,745	134,889
Interest expense and finance charges, net	8,770	7,703
Other expense (income), net	(7,616)	3,803
Income before income taxes	146,591	123,383
Provision for income taxes	36,052	34,572
Net income before non-controlling interest	110,539	88,811
Less: Net income attributable to non-controlling interest	266	—
Net income attributable to Concentrix Corporation	\$ 110,273	\$ 88,811

Revenue

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
(\$ in thousands)			
Industry vertical:			
Technology and consumer electronics	\$ 470,199	\$ 412,818	13.9 %
Communications and media	260,643	248,790	4.8 %
Retail, travel and ecommerce	284,917	239,001	19.2 %
Banking, financial services and insurance	243,246	209,084	16.3 %
Healthcare	150,136	125,224	19.9 %
Other	126,911	118,361	7.2 %
Total	\$ 1,536,052	\$ 1,353,278	13.5 %

We generate revenue by delivering our CX solutions and technology to our clients categorized in the above primary industry verticals. Our solutions focus on customer engagement, process optimization, and back-office automation.

Our revenue increased 13.5% in the three months ended February 28, 2022, compared to the three months ended February 28, 2021, which included approximately two months of revenue related to the acquired PK operations of \$83.2 million, or an increase of 6.1%, and larger volumes across all verticals over the prior year period. These increases were partially offset by a decrease in revenue related to divested businesses of \$15.9 million, or 1.2%, and an unfavorable translation effect of foreign currencies of \$25.6 million, or 1.9%. The unfavorable foreign currency translation effect on revenue was primarily due to the weakening of the euro, Japanese yen and Australian dollar against the U.S. dollar. Revenue in our technology and consumer electronics vertical increased as a result of significant increases in volumes from several social media and internet-related service clients and increases in volumes from a broad-based group of hardware and software clients over the prior year period. Revenue in our communications and media vertical increased primarily due to contributions from the PK operations resulting in increased volumes over the prior year period. Revenue in our retail, travel and ecommerce vertical increased primarily due to contributions from the PK operations and increased volumes across the majority of our retail and ecommerce and travel and tourism clients over the prior year period. Revenue from clients in the banking, financial services and insurance vertical increased due to increased volumes from several banking and financial services clients offset by a decrease in volumes related to our insurance clients. Revenue in our healthcare vertical increased due to contributions from the PK operations and increased volumes across the majority of our health insurance clients. Revenue in our other vertical increased primarily reflecting contributions from the PK operations.

Cost of Revenue, Gross Profit and Gross Margin Percentage

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Cost of revenue	\$ 997,918	\$ 867,228	15.1 %
Gross profit	538,134	486,050	10.7 %
Gross margin %	35.0 %	35.9 %	

Cost of revenue consists primarily of personnel costs. Gross margins can be impacted by resource location, client mix and pricing, additional lead time for programs to be fully scalable, and transition and initial set-up costs.

Our cost of revenue increased by 15.1% in the three months ended February 28, 2022 compared to the three months ended February 28, 2021, primarily due to the increase in our revenue and the cost of revenue associated with approximately two months of the PK operations of \$56.9 million during the first quarter of 2022. The increases were partially offset by foreign currency impacts of \$22.7 million. The foreign currency impact on our cost of revenue was caused primarily by the weakening of the euro, Japanese yen and Philippine peso against the U.S. dollar.

Our gross profit increased 10.7% in the three months ended February 28, 2022 compared to the three months ended February 28, 2021, primarily due to the increase in revenue and the contributions from approximately two months of the PK operations, partially offset by a net unfavorable foreign currency impact of \$2.9 million on gross profit. Our gross margin percentage for the three months ended February 28, 2022 decreased to 35.0% from 35.9% in the prior year period due to the impact of approximately two months of the PK operations and changes in the mix of geographies where our services were delivered.

Selling, General and Administrative Expenses

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Selling, general and administrative expenses	\$ 390,389	\$ 351,161	11.2 %
Percentage of revenue	25.4 %	25.9 %	

Our selling, general and administrative expenses consist primarily of support personnel costs such as salaries, commissions, bonuses, employee benefits and share-based compensation costs. Selling, general and administrative expenses also include the cost of our global delivery facilities, utility expenses, hardware and software costs related to our technology infrastructure, legal and professional fees, depreciation on our technology and facility equipment, amortization of intangible assets resulting from acquisitions, marketing expenses and acquisition-related and integration expenses.

Our selling, general and administrative expenses increased in the three months ended February 28, 2022 compared to the three months ended February 28, 2021, primarily due to \$26.0 million of selling, general and administrative expenses associated with approximately two months of the PK operations during the first quarter of 2022, an increase in share-based compensation expense of \$8.1 million, an increase in amortization expense of \$3.5 million and an increase in acquisition-related and integration expenses of \$0.9 million. These increases were partially offset by favorable currency impacts of \$6.3 million. These items and scale efficiencies resulted in a decrease in selling, general and administrative expenses as a percentage of revenue from 25.9% in the first fiscal quarter of 2021 to 25.4% in the first fiscal quarter of 2022.

Operating Income

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Operating income	\$ 147,745	\$ 134,889	9.5 %
Operating margin	9.6 %	10.0 %	

Our operating income increased during the three months ended February 28, 2022 compared to the three months ended February 28, 2021 due to the increase in gross profit partially offset by the increase in selling, general and administrative expenses.

Our operating margin decreased slightly during the three months ended February 28, 2022 compared to the three months ended February 28, 2021 due to the decrease in gross margin partially offset by the decrease in selling, general and administrative expenses as a percentage of revenue.

Interest Expense and Finance Charges, Net

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Interest expense and finance charges, net	\$ 8,770	\$ 7,703	13.9 %
Percentage of revenue	0.6 %	0.6 %	

Amounts recorded in interest expense and finance charges, net consist primarily of interest on our Prior Term Loan and our Term Loan under our Credit Facility and interest on our Securitization Facility borrowings.

The increase in interest expense for the three months ended February 28, 2022 compared to the three months ended February 28, 2021, reflects the increase in borrowings incurred on the Term Loan as part of our Amended Credit Facility entered into in connection with the PK acquisition and the related interest expense on the increased borrowings.

Other Expense (Income), Net

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Other expense (income), net	\$ (7,616)	\$ 3,803	(300.3)%
Percentage of revenue	(0.5)%	0.3 %	

Amounts recorded as other expense (income), net include foreign currency transaction gains and losses other than cash flow hedges, investment gains and losses, non-service component of pension costs, and other non-operating gains and losses.

Other expense (income), net in the three months ended February 28, 2022 was income of \$7.6 million in comparison to expense of \$3.8 million in the three months ended February 28, 2021. The change in other expense (income), net was primarily due to favorable foreign currency transaction changes compared to the prior year period.

Provision for Income Taxes

	Three Months Ended		% Change
	February 28, 2022	February 28, 2021	2022 to 2021
	(\$ in thousands)		
Provision for income taxes	\$ 36,052	\$ 34,572	4.3 %
Percentage of income before income taxes	24.6 %	28.0 %	

Provision for income taxes consist of our current and deferred tax expense resulting from our income earned in domestic and international jurisdictions.

Our provision for income taxes increased in the three months ended February 28, 2022 compared to the three months ended February 28, 2021, primarily due to the increase in income before taxes during the current year period. The effective tax rate for the three months ended February 28, 2022 decreased compared to the prior year period primarily due to the change in mix of income earned in different tax jurisdictions between periods.

Certain Non-GAAP Financial Information

In addition to disclosing financial results that are determined in accordance with GAAP, we also disclose certain non-GAAP financial information, including:

- Revenue in constant currency, which is revenue adjusted for the translation effect of foreign currencies so that certain financial results can be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance. Revenue in constant currency is calculated by translating the revenue of each fiscal year in the billing currency to U.S. dollars using the comparable prior year's currency conversion rate. Generally, when the U.S. dollar either strengthens or weakens against other currencies, our revenue growth at constant currency rates or adjusting for currency will be higher or lower than our revenue growth reported at actual exchange rates.
- Revenue in adjusted constant currency, which is constant currency revenue excluding revenue for businesses acquired or divested since the beginning of the prior year period so that revenue growth can be viewed without the impact of acquisitions or divestitures, thereby facilitating period-to-period comparisons of our business performance.
- Non-GAAP operating income, which is operating income, adjusted to exclude acquisition-related and integration expenses, including related restructuring costs, amortization of intangible assets and share-based compensation.
- Non-GAAP operating margin, which is non-GAAP operating income, as defined above, divided by revenue.
- Adjusted earnings before interest, taxes, depreciation, and amortization, or adjusted EBITDA, which is non-GAAP operating income, as defined above, plus depreciation.
- Adjusted EBITDA margin, which is adjusted EBITDA, as defined above, divided by revenue.
- Non-GAAP net income, which is net income excluding the tax effected impact of acquisition-related and integration expenses, including related restructuring costs, amortization of intangible assets and share-based compensation.
- Free cash flow, which is cash flows from operating activities less capital expenditures. We believe that free cash flow is a meaningful measure of cash flows since capital expenditures are a necessary component of ongoing operations. However, free cash flow has limitations because it does not represent the residual cash flow available for discretionary expenditures. For example, free cash flow does not incorporate payments for business acquisitions.
- Non-GAAP diluted earnings per common share ("EPS"), which is diluted EPS excluding the per share, tax effected impact of acquisition-related and integration expenses, including related restructuring costs, amortization of intangible assets and share-based compensation.

We believe that providing this additional information is useful to the reader to better assess and understand our base operating performance, especially when comparing results with previous periods and for planning and forecasting in future periods, primarily because management typically monitors the business adjusted for these items in addition to GAAP results. Management also uses these non-GAAP measures to establish operational goals and, in some cases, for measuring performance for compensation purposes. These non-GAAP financial measures exclude amortization of intangible assets. Our acquisition activities have resulted in the recognition of intangible assets, which consist primarily of client relationships, technology and trade names. Finite-lived intangible assets are amortized over their estimated useful lives and are tested for impairment when events indicate that the carrying value may not be recoverable. The amortization of intangible assets is reflected in our statements of operations. Although intangible assets contribute to our revenue generation, the amortization of intangible assets does not directly relate to the services performed for our clients. Additionally, intangible asset amortization expense typically fluctuates based on the size and timing of our acquisition activity. Accordingly, we believe excluding the amortization of intangible assets, along with the other non-GAAP adjustments, which neither relate to the ordinary course of our business nor reflect our underlying business performance, enhances our and our investors' ability to compare our past financial performance with its current performance and to analyze underlying business performance and trends. Intangible asset amortization excluded from the related non-GAAP financial measure represents the entire amount recorded within our GAAP financial statements, and the revenue generated by the associated intangible assets has not been excluded from the related non-GAAP financial measure. Intangible asset amortization is excluded from the related non-GAAP financial measure because the amortization, unlike the related revenue, is not affected by operations of any particular period unless an intangible asset becomes impaired or the estimated useful life of an intangible asset is revised. These non-GAAP financial measures also exclude share-based compensation expense. Given the subjective assumptions and the variety of award types that companies can use when calculating

share-based compensation expense, management believes this additional information allows investors to make additional comparisons between our operating results and those of our peers. As these non-GAAP financial measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies. These non-GAAP financial measures should not be considered in isolation or as a substitute for the comparable GAAP measures and should be used as a complement to, and in conjunction with, data presented in accordance with GAAP.

(1) The tax effect of taxable and deductible non-GAAP adjustments was calculated using the tax deductible portion of the expenses and applying the entity specific, statutory tax rates applicable to each item during the respective periods.

Liquidity and Capital Resources

Our primary uses of cash are working capital, capital expenditures to expand our delivery footprint and enhance our technology solutions, debt repayments and acquisitions, including our recent acquisition of PK. Our financing needs for these uses of cash have been a combination of operating cash flows and third-party debt arrangements. Our working capital needs are primarily to finance accounts receivable. When our revenue is increasing, our net investment in working capital typically increases. Conversely, when revenue is decreasing, our net investment in working capital typically decreases. To increase our market share and better serve our clients, we may further expand our operations through investments or acquisitions. We expect that such expansion would require an initial investment in working capital, personnel, facilities, and operations. These investments or acquisitions would likely be funded primarily by our existing cash and cash equivalents, available liquidity, including capacity on our debt arrangements, or the issuance of securities.

In September 2021, considering our strong free cash flow, low leverage and adequate liquidity to support capital return to stockholders while maintaining flexibility to pursue acquisitions, the Company's board of directors authorized a share repurchase program. Under the share repurchase program, the board of directors authorized the Company to purchase up to \$500 million of our common stock from time to time as market and business conditions warrant, including through open market purchases or Rule 10b5-1 trading plans. The repurchase program has no termination date and may be suspended or discontinued at any time. During the three months ended February 28, 2022, we did not purchase shares of our common stock under the program. At February 28, 2022, approximately \$474.9 million remained available for share repurchases under the existing authorization from the Company's board of directors.

During fiscal years 2022 and 2021, the Company has paid the following dividends per share approved by the Company's board of directors:

Announcement Date	Record Date	Per Share Dividend Amount	Payment Date
September 27, 2021	October 22, 2021	\$0.25	November 2, 2021
January 18, 2022	January 28, 2022	\$0.25	February 8, 2022

On March 29, 2022, we announced a cash dividend of \$0.25 per share to stockholders of record as of April 29, 2022, payable on May 10, 2022.

The board of directors expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to our board of directors' approval, and will depend on many factors, such as our financial condition, earnings, capital requirements, debt service obligations, restrictive covenants in our debt agreements, industry practice, legal requirements, regulatory constraints, and other factors that our board of directors deems relevant. Our ability to pay dividends will depend on our ongoing ability to generate cash from operations and on our access to the capital markets. We cannot guarantee that we will continue to pay a dividend in the future.

Debt Arrangements

Credit Facility

On December 27, 2021, in connection with the closing of the acquisition of PK, we entered into an amendment of our senior secured credit facility (the "Credit Facility") (i) to refinance the previously existing term loan (the "Prior Term Loan") with a new term loan, which was fully advanced, in the aggregate outstanding principal amount of \$2,100 million (the "Term Loan"), (ii) to increase the revolving credit facility (the "Revolver") to \$1,000 million, (iii) to extend the maturity of the Credit Facility from November 30, 2025 to December 27, 2026, (iv) to replace LIBOR with SOFR as the primary reference rate used to calculate interest on the loans under the Credit Facility, and (v) to modify the commitment fee on the unused portion of the Revolver and the margins in excess of the reference rates at which the loans under the Credit Facility bear interest. The proceeds from the Term Loan and additional borrowings on the Securitization Facility were used to repay the principal amount outstanding on the Prior Term Loan and to finance the acquisition of PK, including the repayment of certain indebtedness of PK and the payment of fees and expenses in connection with the acquisition.

As amended, borrowings under the Credit Facility bear interest, in the case of SOFR rate loans, at a per annum rate equal to the applicable SOFR rate (but not less than 0.0%), plus an adjustment of between 0.10% and 0.25% depending on the interest period of each SOFR loan, plus an applicable margin, which ranges from 1.25% to 2.00%, based on our consolidated leverage ratio. Borrowings under the Credit Facility that are not SOFR rate loans bear interest at a per annum rate equal to (i) the greatest of (a) the Federal Funds Rate in effect on such day plus ½ of 1.00%, (b) the rate of interest last publicly announced by Bank of America as its “prime rate” and (c) the term SOFR rate plus 1.00%, plus (ii) an applicable margin, which ranges from 0.25% to 1.00%, based on our consolidated leverage ratio. As amended, the commitment fee on the unused portion of the Revolver ranges from 22.5 to 30 basis points, based on our consolidated leverage ratio.

Beginning August 31, 2022, the outstanding principal of the Term Loan is payable in quarterly installments of \$26.25 million, with the unpaid balance due in full on the maturity date.

We may request, subject to obtaining commitments from any participating lenders and certain other conditions, incremental commitments to increase the amount of the Revolver or the Term Loan available under the Credit Facility in an aggregate principal amount of up to \$450 million, plus an additional amount, so long as after giving effect to the incurrence of such additional amount, our pro forma first lien leverage ratio (as defined in the Credit Facility) would not exceed 3.00 to 1.00.

Obligations under the Credit Facility are secured by substantially all of the assets of Concentrix and certain of its U.S. subsidiaries and are guaranteed by certain of its U.S. subsidiaries.

The Credit Facility contains various loan covenants that restrict the ability of Concentrix and its subsidiaries to take certain actions, including incurrence of indebtedness, creation of liens, mergers or consolidations, dispositions of assets, repurchase or redemption of capital stock, making certain investments, entering into certain transactions with affiliates or changing the nature of our business. In addition, the Credit Facility contains financial covenants that require us to maintain at the end of each fiscal quarter, (i) a consolidated leverage ratio (as defined in the Credit Facility) not to exceed 3.75 to 1.0 and (ii) a consolidated interest coverage ratio (as defined in the Credit Facility) equal to or greater than 3.00 to 1.0. The Credit Facility also contains various customary events of default, including payment defaults, defaults under certain other indebtedness, and a change of control of Concentrix.

We initially entered into the Credit Facility on October 16, 2020, and the Credit Facility initially provided for the extension of revolving loans of up to \$600 million and term loan borrowings of up to \$900 million. On November 30, 2020, in connection with the spin-off, we incurred \$900 million of term loan borrowings under the Credit Facility and \$250 million of borrowings under the Securitization Facility (as defined below). Substantially all of the proceeds from such indebtedness, net of debt issuance costs, were transferred to TD SYNEX on November 30, 2020 to eliminate debt owed by the Company to TD SYNEX and in exchange for the contribution of certain Company trademarks from TD SYNEX to the Company.

Beginning May 31, 2021, the outstanding principal of the Prior Term Loan was payable in quarterly installments of \$11.25 million, with the unpaid balance due in full on the maturity date. During the fiscal year ended November 30, 2021, we paid \$200.0 million of the principal balance on the Prior Term Loan, including \$166.25 million of voluntary prepayments without penalty.

We had no outstanding borrowings on the Revolver as of February 28, 2022 or November 30, 2021.

Securitization Facility

On October 30, 2020, we entered into a \$350 million accounts receivable securitization facility (the “Securitization Facility”) pursuant to certain agreements, including a receivables financing agreement and a receivables purchase agreement.

The Securitization Facility has a termination date of October 28, 2022. Under the Securitization Facility, Concentrix and certain of its U.S. based subsidiaries (the “Originators”) sell or otherwise transfer all of their accounts receivable to a special purpose bankruptcy-remote subsidiary of Concentrix that grants a security interest in the receivables to the lenders in exchange for available borrowings of up to \$350 million. Borrowing availability under the Securitization Facility may be limited by our accounts receivable balances, changes in the credit ratings of our clients comprising the receivables, client concentration levels in the receivables, and certain characteristics of the accounts receivable being transferred (including factors tracking performance of the accounts receivable over time). In May 2021, we amended the Securitization Facility to remove CIS as an Originator.

Borrowings under the Securitization Facility bear interest with respect to loans that are funded through the issuance of commercial paper at the applicable commercial paper rate plus a spread of 1.05% and, otherwise, at a per annum rate equal to the applicable LIBOR rate plus a spread of 1.15%. We are also obligated to pay a monthly undrawn fee that ranges from 30 to 37.5 basis points based on the portion of the Securitization Facility that is undrawn.

The Securitization Facility contains various affirmative and negative covenants, including a consolidated leverage ratio covenant that is consistent with the Credit Facility and customary events of default, including payment defaults, defaults under certain other indebtedness, a change in control of Concentrix, and certain events negatively affecting the overall credit quality of the transferred accounts receivable.

As of February 28, 2022, we were in compliance with the debt covenants related to our debt arrangements.

Cash Flows – Three Months Ended February 28, 2022 and 2021

The following summarizes our cash flows for the three months ended February 28, 2022 and 2021, as reported in our consolidated statement of cash flows in the accompanying consolidated financial statements.

	Three Months Ended	
	February 28, 2022	February 28, 2021
	(\$ in thousands)	
Net cash provided by operating activities	\$ 45,015	\$ 35,884
Net cash used in investing activities	(1,610,823)	(41,950)
Net cash provided by (used in) financing activities	1,527,353	(30,618)
Effect of exchange rate changes on cash, cash equivalents and restricted cash	(1,395)	(471)
Net decrease in cash, cash equivalents and restricted cash	\$ (39,850)	\$ (37,155)
Cash, cash equivalents and restricted cash at beginning of year	183,010	156,351
Cash, cash equivalents and restricted cash at the end of the period	<u>\$ 143,160</u>	<u>\$ 119,196</u>

Operating Activities

Net cash provided by operating activities was \$45.0 million for the three months ended February 28, 2022 in comparison to \$35.9 million for the three months ended February 28, 2021. The increase in net cash provided by operating activities over the prior year period was primarily related to the increase in net income, partially offset by changes in working capital over the prior year period.

Investing Activities

Net cash used in investing activities for the three months ended February 28, 2022 was \$1,610.8 million in comparison to \$42.0 million for the three months ended February 28, 2021. The increase in net cash used in investing activities over the prior year period primarily related to the cash paid in connection with our acquisition of PK.

Financing Activities

Net cash provided by financing activities for the three months ended February 28, 2022 was \$1,527.4 million, consisting primarily of net proceeds from the refinancing of the term loan under the amended Credit Facility of \$1,400.0 million and net proceeds from the Securitization Facility of \$149.0 million, offset by cash paid for debt issuance costs of \$8.9 million and dividends of \$13.1 million.

Net cash used in financing activities for the three months ended February 28, 2021 was \$30.6 million, consisting primarily of the payment of \$50.0 million of the principal balance of the term loan under the Credit Facility, partially offset by net third-party borrowings of \$17.5 million under the Securitization Facility.

We believe our current cash balances and credit availability are enough to support our operating activities for at least the next twelve months.

Free Cash Flow (a non-GAAP measure)

	Three Months Ended	
	February 28, 2022	February 28, 2021
	(\$ in thousands)	
Net cash provided by operating activities	\$ 45,015	\$ 35,884
Purchases of property and equipment	(45,393)	(41,950)
Free cash flow (a non-GAAP measure)	<u>\$ (378)</u>	<u>\$ (6,066)</u>

Our free cash flow was a use of \$0.4 million for the three months ended February 28, 2022 compared to a use of \$6.1 million for the three months ended February 28, 2021. The increase in free cash flow for the three months ended February 28, 2022 was due to the increase in cash provided by operating activities partially offset by an increase in capital expenditures.

Capital Resources

As of February 28, 2022, we had total liquidity of approximately \$1,238.2 million, which includes undrawn Revolver capacity of \$1,000.0 million on the Credit Facility, undrawn capacity of \$96.0 million on the Securitization Facility and cash and cash equivalents.

Our cash and cash equivalents totaled \$142.2 million and \$182.0 million as of February 28, 2022 and November 30, 2021, respectively. Of our total cash and cash equivalents, 96% and 87% were held by our non-U.S. legal entities as of February 28, 2022 and November 30, 2021, respectively. The cash and cash equivalents held by our non-U.S. legal entities are no longer subject to U.S. federal tax on repatriation into the United States. Repatriation of some non-U.S. balances is restricted by local laws. Historically, we have fully utilized and reinvested all non-U.S. cash to fund our international operations and expansion; however, the Company has recorded deferred tax liabilities related to non-U.S. withholding taxes on the earnings of certain previously acquired non-U.S. entities that are likely to be repatriated in the future. If in the future our intentions change, and we repatriate the cash back to the United States, we will report in our consolidated financial statements the impact of the state and withholding taxes depending upon the planned timing and manner of such repatriation. Presently, we believe we have sufficient resources, cash flow and liquidity within the United States to fund current and expected future working capital, investment and other general corporate funding requirements.

We believe that our available cash and cash equivalents balances, the cash flows expected to be generated from operations, and our sources of liquidity will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital, planned capital expenditures and other general corporate funding requirements will be satisfied through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

We are and will be exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from changes in market rates and prices. Our risk management strategy includes managing these risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments. We utilize derivative financial instruments to hedge economic exposures, as well as reduce earnings and cash flow volatility resulting from shifts in market rates. In using derivative financial instruments to hedge our exposures to changes in exchange rates, we expose ourselves to counterparty credit risk. We manage our exposure to counterparty credit risk by entering into derivative financial instruments with investment grade-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the financial institutions with which we enter into such agreements. There can be no guarantee that the risk management activities that we have entered into will be sufficient to fully offset market risk or reduce earnings and cash flow volatility resulting from shifts in market rates. See Note 6 of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional discussion of our financial risk management.

Foreign Currency Risk

While approximately 66% of our revenue is priced in U.S. dollars, we recognize a substantial amount of revenue under contracts that are denominated in euros, British pounds, Australian dollars and Japanese yen, among other currencies. A significant increase in the value of the U.S. dollar relative to these currencies may have a material adverse effect on the value of those services when translated into U.S. dollars.

We serve many of our U.S.-based, European and British clients from our CX delivery centers located around the world. As a result, a substantial portion of the costs to deliver these services are denominated in the local currency of the country where the services are performed. This creates a foreign exchange exposure for us. As of February 28, 2022, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in certain foreign currencies by entering into hedging contracts with institutions to acquire a total of PHP 35,030.0 million at a fixed price of \$682.5 million at various dates through February 2024; and INR 19,335.0 million at a fixed price of \$245.2 million at various dates through February 2024. The fair value of these derivative instruments as of February 28, 2022 is presented in Note 7 of the consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. The potential loss in fair value at February 28, 2022 for such contracts resulting from a hypothetical 10% adverse change in the underlying foreign currency exchange rates is approximately \$92.1 million. This loss would be substantially mitigated by corresponding gains on the underlying foreign currency exposures.

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into hedging contracts that are not denominated as hedges. The purpose of these derivative instruments is to protect us against foreign currency exposure related receivables, payables and intercompany transactions that are denominated in currencies that are different from the functional currencies of our respective legal entities that are party to the transactions. As of February 28, 2022, the fair value of these derivatives not designated as hedges was a net receivable of \$3.4 million.

Interest Rate Risk

At February 28, 2022, all of our outstanding debt under the Credit Facility and Securitization Facility is variable debt, which exposes the Company to changes in interest rates. Holding other variables constant, including the total amount of outstanding indebtedness, a one hundred basis point increase in interest rates on our variable-rate debt would cause an estimated increase in interest expense of approximately \$23.5 million per year.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Based on the evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) required by 13a-15(b) or 15d-15(b) under the Exchange Act, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including the principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting

We acquired PK in the first quarter of fiscal year 2022. We are currently in the process of evaluating and integrating the acquired operations, processes, and internal controls. See Note 3 of the consolidated financial statements included in this report for additional information on the acquisition of PK.

Except for the acquisition of PK, there were no changes in our internal control over financial reporting that occurred during our first fiscal quarter of fiscal year 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are involved in legal proceedings in the ordinary course of business. We do not believe that these proceedings will have a material adverse effect on the results of our operations, our financial position or the cash flows of our business. During the three months ended February 28, 2022, there were no new material legal proceedings and no material developments in any legal proceedings reported in our Annual Report on Form 10-K for the fiscal year ended November 30, 2021.

ITEM 1A. RISK FACTORS

You should carefully review and consider the information regarding certain factors that could materially affect our business, results of operations and financial condition set forth in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended November 30, 2021. There have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended November 30, 2021.

ITEM 6. EXHIBITS

Exhibit No.	Exhibit Description
2.1	<u>Agreement and Plan of Merger dated as of November 19, 2021 by and among Concentrix Corporation, CNXC Merger Sub, Inc., ProKarma Holdings Inc. and Carlyle Partners VI Holdings, L.P. (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K filed on November 24, 2021).</u> *
2.2	<u>First Amendment to Agreement and Plan of Merger, dated as of December 20, 2021, by and among Concentrix Corporation, CNXC Merger Sub, Inc., ProKarma Holdings Inc. and Carlyle Partners VI Holdings, L.P. (incorporated by reference to Exhibit 2.1 to the Company's Current Report on Form 8-K filed on December 23, 2021).</u> *
3.1	<u>Amended and Restated Certificate of Incorporation of the Company (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed on December 2, 2020).</u>

SECTION 302 CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Christopher Caldwell, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Concentrix Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

SECTION 302 CERTIFICATION OF CHIEF FINANCIAL OFFICER

I, Andre Valentine, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Concentrix Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. § 1350**

We, Christopher Caldwell, the President and Chief Executive Officer of Concentrix Corporation (the "Company"), and Andre Valentine, the Chief Financial Officer of the Company, certify for the purposes of section 1350 of chapter 63 of title 18 of the United States Code, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of our knowledge:

(1) The Quarterly Report on Form 10-Q for the period ended February 28, 2022 fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: April 8, 2022
